

Mr. S. Muzaffar Hussain | Managing Director, Asmita Group

Architecture is a social art that touches all human beings at all levels of their existence everywhere and everyday. This is the only discipline, which encompasses the four major fields of human endeavour. Humanities, Science, Art and Technology, actually putting into practice the professional inputs drawn from them.

We aim to produce several batches of Architects from our college who feel deeply concerned towards national priorities in the fields of energy conservation, ecology, environmental pollution, protection and preservation of Architectural heritage and their precincts, low cost housing, urban renewals, rural upliftment, economic development at local and district levels etc.

In the interest of quality of life both in rural and urban settlements. We believe in encouraging the creativity and harmony among the students, as they have the essence of Architecture. We take pride in Architecture that has been recognized as great, in the historic past as well as in our time and has been harmonious with nature and its immediate environment.

Ar. Vinayak P. Nabar | Principal, Asmita College of Architecture

I am humbled by the achievements of our students in just eleven years of our existence in Architectural Education. We are proud of their performance in academic and social events. This was possible only due to the vision of our Institution, dedication of our faculty and sincere efforts by our students. Not letting the complacency to set in, I would urge each one of us to strive for excellence in professional and personal growth.

Our Vision :

To create leaders in the profession who will effectively perform in the multidisciplinary field of Architecture.

Our Mission :

- *To equip the students with skills, knowledge and an attitude of excellence in design education.
- *To create strong foundation of analytical skills to research and state the design programme in all aspects.
- * Foster creativity in generating concepts and evaluate them in the context of the programme.
- * Enrich the students with skills for design development and detailing with focus on environment, technology, economy, behavioural science and aesthetics.
- * Creating a strong toolkit of verbal and visual communication.

ELIGIBILITY FOR B.ARCH COURSE DURING 2017 - 2018

As per the Council of Architecture, Minimum standards of Architectural Education, 1983, no candidate, with less than 50% marks in aggregate, shall be admitted to architecture course unless he/she has passed an examination at the end of IO+2 scheme of Senior School Certificate examination or equivalent with Mathematics as subjects of examination at the IO+2 Level.

Further, candidates who have passed IO+3 Diploma with subject of Mathematics, duly recognised by Central/State Governments as equivalent to IO+2 level, with minimum 50% aggregate marks are also eligible for admission to B.Arch Course. The institutions shall follow the reservation policy or respective of respective Government in granting relaxation in percentage of marks obtained in the qualifying examination for admission in the institutions.

It is also stated that admission to Ist Year of Architecture course shall be made subject to the candidates passing the NATA or any specially designed aptitude test in Architecture conducted by the competent authority of Central/ State Governments.

It is further informed that the revised eligibility for the admission to the said course as approved by MHRD, to include Physics, Chemistry and Mathematics as mandatory subjects at IO+2 Level, shall come into effect only after the publication of the same in the official gazette. Once the same comes into effect, it shall be applicable for all students studying in I Ith and I2th class.
